TYUMEN STATE MEDICAL UNIVERSITY

MINISTRY OF HEALTH OF THE RUSSIAN FEDERATION
ESTABLISHED IN JUNE 08, 1963

Message From

Rector

DEAR PROSPECTIVE STUDENTS AND ESTEEMED PARENTS

Ivan Mikhailovich Petrov

Rector

At Tyumen State Medical University (TSMU), we have meticulously cultivated an environment that fosters academic excellence, innovative research, and the holistic development of each student. Established in 1963, TSMU has a rich history of over six decades in medical education, having trained over 25,000 doctors who serve in various capacities across Russia and beyond.

Our university offers a diverse range of programs, including General Medicine, Pediatrics, Pharmacy, Dentistry, and Nursing, with approximately 3,500 students enrolled annually. We also provide advanced training and professional retraining to about 6,000 individuals each year across 56 medical specialties.

TSMU boasts a distinguished faculty comprising around 130 Doctors of Science and 300 Candidates of Science, with four honored as Distinguished Scientists of the Russian Federation. Our students benefit from five academic buildings and gain practical experience across 24 medical institutions in Tyumen and the surrounding region.

We understand that selecting the right institution is a pivotal decision. Whether in Russia or elsewhere globally, students and parents seek confidence in their choice of a holistic learning environment. TSMU is proud to be recognized as a leading medical university, attracting top-tier students who are eager to make a meaningful impact in the world.

On behalf of Tyumen State Medical University, I assure you that our culture and mission are centered around your success and development. We invite you to join us in our pursuit of excellence and become a part of a community that values knowledge, innovation, and humanity.

Sincerely,
Ivan Mikhailovich Petrov
Rector, Tyumen State Medical University

1. Entrants send their own high school diploma copies and medical examination with the copy of their passport to Dean's e-mail and write a short letter about yourself. The Dean's office will check your documents and can help with the translation and notarization. Students must also have the originals documents when they arrive in Russian Federation.
2. Entrants will pass test on Biology and Chemistry.
3. If the students passes the test he/she should pay all the fees and start their classes.

LET'S KNOW ABOUT RUSSIA

Russia, the largest country in the world, spans Eastern Europe and Northern Asia, covering a vast territory of about 17.1 million square kilometers. Here's a brief overview of Tyumen, one of Russia's major cities.

GEOGRAPHY :

Borders : Russia shares borders with 16 countries, including China, Ukraine, and Kazakhstan, and has coastlines along the Arctic and Pacific Oceans.

Climate : The climate varies greatly across Russia, but Tyumen experiences harsh winters and mild summers.

Natural Wonders : Tyumen is known for its hot springs, picturesque embankments, and historical wooden architecture.

Tyumen's Location :

- First Russian settlement in Siberia.
- Approximately 2,144 km (1,333 miles) east of Moscow.
- The journey by flight takes around 3 hours.

WEATHER :

Summer: June to August

Autumn: September to October

Winter: November to March

Spring: April to May

Average Temperature: -5°C (23°F) to 20°C (68°F)

About Tyumen State Medical University

ACADEMIC EXCELLENCE

TSMU offers undergraduate, graduate, and postgraduate programs in medicine, dentistry, and pharmacy. The university focuses on clinical training, research, and modern medical practices to prepare students for the global healthcare industry.

“

KEY HIGHLIGHTS

- 6,000+ students currently studying at the university.
- State-of-the-art laboratories & simulation centers for practical training.
- Recognized by WHO, NMC, FAIMER, & ECFMG.
- Affordable tuition fees and cost of living compared to other European universities.
- FMGE-focused curriculum to support Indian students preparing for medical licensing exams.

“

Tyumen State Medical University (TSMU) was founded in 1963 in Tyumen, Russia. It is one of the leading medical institutions in Siberia, providing high quality medical education. The university is recognized by the World Health Organization (WHO), the National Medical Commission of India (NMC), and the Foundation for Advancement of International Medical Education and Research (FAIMER), making it a globally recognized institution.

”

STUDENT LIFE & FACILITIES

- Modern hospitals & clinical training centers for hands-on medical practice.
- Comprehensive libraries & research facilities to support academic growth.
- International student community with a multicultural environment.
- Comfortable hostel accommodations with all necessary amenities.
- “Providing World-Class Medical Education for a Better Tomorrow.”

Campus Life

Student Life for Indian Students at Tyumen State Medical University

Tyumen State Medical University (TSMU) offers a structured and secure living environment tailored to meet the needs of Indian students. With a well-organized hostel system, essential facilities, and a strong Indian student community, TSMU ensures a comfortable and academically focused atmosphere.

Hostel Facilities & Infrastructure

- Fully Furnished Accommodation – Spacious rooms with study desks, beds, wardrobes, and heating systems.
- Separate Hostels for Boys & Girls – Ensuring privacy, discipline, and structured living.
- 24/7 Security & CCTV Surveillance – A highly secure environment with round-the-clock monitoring.
- Central Heating System – Designed to provide warmth and comfort during Russian winters.
- Hygienic Living Conditions – Regular cleaning, housekeeping, and maintenance services.
- Laundry Facilities – Dedicated services for students' convenience.
- High-Speed Wi-Fi & Study Halls – Seamless internet access and academic support areas.
- Recreational & Fitness Facilities – Access to gymnasiums, sports centers, and common leisure areas.
- Medical Assistance On Campus – Immediate medical support available for students' well-being.

Academic & Social Life for Indian Students

- Many Indian Students Already Studying – A growing Indian student community ensures a familiar environment.
- FMGE/NEXT Coaching Support – Special academic guidance for Indian medical licensing exams.
- Dedicated Study Spaces – Well-equipped reading rooms, libraries, and academic discussion areas.
- Cultural & Social Engagement – Indian festivals like Diwali, Holi, and Navratri are celebrated with enthusiasm.
- Structured Daily Routine – Encouraging students to maintain a balance between academics and personal well-being.

An Ideal Environment for Indian Medical Aspirants

Tyumen State Medical University understands the unique requirements of Indian students and provides a supportive ecosystem for their academic success and personal comfort. With a safe, culturally inclusive, and academically driven environment, students can focus entirely on their MBBS journey.

“A university is not just a place to study—it's where future doctors grow, learn, and thrive.”

India & Russia Partnership

A HISTORIC & EVOLVING RELATIONSHIP

India and Russia have shared a Special & Privileged Strategic Partnership for decades, strengthening ties in education, healthcare, trade, defense, and technology. This strong foundation has opened vast opportunities for Indian students, especially in the field of medical education.

LATEST DEVELOPMENTS IN INDIA-RUSSIA RELATIONS

- 2024: India and Russia reaffirmed their commitment to higher education collaboration, increasing opportunities for Indian students.
- 2025: Russia and India are actively working on mutual recognition of medical degrees, making it easier for students to return and practice in India.
- Ongoing: Bilateral trade discussions to enhance payment mechanisms for students and businesses.

SEAMLESS PAYMENT SYSTEM FOR INDIAN STUDENTS

- Rupee-Ruble Trade Mechanism – Simplifies financial transactions for tuition and living expenses.
- Integration of UPI & MIR Cards – India's UPI payment system is being linked with Russia's MIR card system for smoother transactions.
- Digital Banking Solutions – Indian students can now access digital banking options in Russia, reducing dependency on international wire transfers.

BRICS & EDUCATIONAL COOPERATION

As key members of BRICS (Brazil, Russia, India, China, South Africa), India and Russia continue to strengthen partnerships in higher education, medical research, and student exchange programs.

- BRICS University Network – Expanding educational collaborations and faculty exchange.
- Joint Research in Healthcare & Medicine – Encouraging scientific advancements through bilateral efforts.
- Scholarship & Student Mobility Programs – Increasing the number of Indian students in Russian universities.

MODI-PUTIN FRIENDSHIP & STUDENT SUPPORT INITIATIVES

The strong personal bond between Prime Minister Narendra Modi & President Vladimir Putin has led to:

- More streamlined student visa processes for Indian students in Russia.
- Increased diplomatic support for Indian nationals studying and working in Russia.
- Cultural and academic exchange programs between the two nations.

NEAREST INDIAN EMBASSY FOR STUDENTS

While Tyumen does not host an Indian diplomatic mission, the nearest Indian Embassy is in Moscow, approximately 1,700 km away. The embassy provides:

- Consular assistance for Indian students.
- Visa & passport services for students and families.
- Emergency support in case of medical or legal concerns.
